THE LOCATION

The B&B is located in the central area of the city centre within the UNESCO World Heritage Site. Centrality one of the best places to explore Amsterdam and beyond. Literally, most tourist attractions are just around the corner, within walking distance.

Our guest with lucky stars just need to walk through the city to reach the major canals, (dis)amenities and shopping. A short walk you will find the top tourist shopping area of Amsterdam. A number of small (dis)amenities, like hairdressers, banks, restaurants, are also in the local shopping area of interest. The former area also has beautiful good restaurants and bars. Literally: from shops and even a small art district.
